

**TFC Flying Club
Pvt. Flight Training**

This is a list of training material and equipment recommended for Private Pilot Flight training. There is a lot of material available. I am suggesting this list that in my opinion is very adequate and is not the most expensive.

Ground School Material

- Test Prep TP-P-09, ASA
- Complete Private Pilot PPT-10, ASA
- Combo, Airplane Flying Handbook (FAA-H-8083-3A) and Pilot's Handbook of Aero Knowledge (FAA-H-8083-25)
- Plotter CP-1
- Student E6B E6B/P

Additional Material that will always be needed when you start flying

- Headset
- Fuel Sample Cup
- POH for the plane used in training
- Sectional Chart
- Terminal Area Chart
- Airport Facilities Directory

Minimum Library

- FAR/AIM book
- Practical Test Standards (PTS)

For those interested in a better understanding of Weather

- Aviation Weather (AC 00-6A)
- Aviation Weather Services (AC-45E)
